RE: Inquiry as to Well Sampling Information

Dear Mr. King:

On March 28, 1990, Messrs. Mack Croft and David Rupp inspected your facilities. You reported that two of the monitoring wells near pads 1 through 5 had cyanide in the water, and showed some lab analysis of the cyanide concentrations. We request that you provide a map showing the well locations, lab testing results, as well as any other new information regarding pollutants in the monitoring well system.

Sincerely,

Kiran L. Bhayani, P.E., Manager  
Design Evaluation Section  
Bureau of Water Pollution Control
